Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 28, 2007 has been entered.

Response to Amendment

2. Amendment filed December 28, 2007 has been entered. Claims 3 and 5-9 are pending. Claims 1-2, 4 are cancelled.

3. Applicant's arguments filed December 28, 2007, have been fully considered but they are not found persuasive.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1646

4. Claims 3 and 5-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims recite the terms "centesimal homeopathic dilutions", "C50, C200, and C1000 homeopathic dilution" and "C12, C30, and C200 homeopathic dilution" which is vague and indefinite because it is not clear what the terms mean. Dilutions are relative terms whose metes and bounds cannot be determined without the original concentration of the initial solution prior to dilution.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 3 and 5-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Le et al. (US 5,698,195).

Le et al. disclose anti-TNF antibodies used for treatment of rheumatoid arthritis (columns 34-38). Le et al. teach numerous method of therapeutic administration with different dosages (column 36).

The term "potentiated antibodies" and homeopathic potentiation technology" is not defined and thus the antibodies of Le et al. inherently comprises such properties.

The homeopathic dilution terms are relative terms whose metes and bounds cannot be determined since the original concentration prior to dilution is not known. Thus, the dilution term is met by the concentration disclosed by Le et al.

Applicants argue that antibodies are highly dilute and thus cannot be met by the teachings of Le et al. However, the terms are relative term whose final concentration is not clear as discussed in the above rejections for 35 USC 112 paragraph 2. Furthermore, Le et al. discloses the different doses (column 36).

6. No claims are allowed.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Pak whose telephone number is 571-272-0879. The examiner can normally be reached on 8:00 - 2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Nickol can be reached on 571-272-0835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
